

HANDS-ON WORKSHOP IN VASCULAR ULTRASOUND

Bellvitge University Hospital, BARCELONA (Spain)
May, 6-8th, 2026

HANDS-ON WORKSHOP IN VASCULAR ULTRASOUND

Bellvitge University Hospital, Barcelona (Spain) May, 6-8th, 2026

KEY BENEFITS

The course provides a thorough grounding in the clinical skills to work in vascular ultrasound.

During the course, participants are presented with an intensive series of short lectures focussed on technical aspects of the different US examinations.

Classroom teaching is supplemented by sessions at the Vascular Laboratory, where participants have the opportunity to practice their skills under supervision on patients with relevant disease and homemade puncture models for US-guided puncture. The course includes 60% of time on hands-on on machines and real patients, in several vascular ultrasound disciplines.

The workshop is addressed mainly to novice trainees and to those willing to prepare for the CCVUS examination.

E-LEARNING MODULE

Before attending the course, participants will have access to an online blended learning module that will introduce them to the basic knowledge of ultrasound and the standards of the different examinations.

The e-learning module includes:

- infographies and presentations about all issues of the program
- a quiz that helps to review basic concepts of US physics, the anatomy of commonly examined areas, and the most important diagnostic criteria.
- a forum open to questions from all participants.
- a survey about previous US experience that will help us to prepare the groups for the workshop

This preparatory module is intended as a tool to save time in lectures, allowing more time for hands-on practice. It will open 15 days before the course and close one month after it. Registered participants will receive access instructions before April, 20th.

REGISTRATION

The registration fee is €800 for ESVS members and €1000 for non-members. It includes course materials, coffees, lunches and a course dinner on May, 6th. Transport, accommodation, and additional meals are not included.

VENUE

The course will be held at the University Building and Vascular Laboratory of Hospital Universitari de Bellvitge, Barcelona (Spain). It will be in English.

Bellvitge University Hospital is located between Barcelona city center and the airport.

https://bellvitgehospital.cat/ca/on-som/accessos

From the airport:

With public transport, you should take bus Nº 46 from terminal 1 and get off at the "Gran Via-Hospital Princeps d'Espanya" stop and cross the highway using the subway pedestrian crossing. There is a bus every 20 minutes from 5:30 AM till 12:00PM, bus journey takes approximately 10min. On arrival at the airport follow the signs to public bus stops below the arrival Hall of Terminal 1 or outside Terminal 2. Tickets can be bought directly on the bus. For more information, you can check the TMB web site:

http://www.tmb.cat/en/linia-de-bus/-/bus/46

From Terminal 1 or Terminal 2, you can also take the Metro (subway), just follow the signs to Line 9 station from the Arrival Hall of both terminals and take any train to Zona Universitaria. You will have to switch to Line 1 at Torrassa Station and take a train towards Hospital de Bellvitge.

A taxi from terminal 1 to the Hospital will take 5 minutes and cost less than 25€.

From Barcelona city centre:

Take the Metro (subway). The last stop of Line 1 (red) is Hospital de Bellvitge. There is only one exit located inside the hospital premises. More info:

http://www.tmb.cat/en/detall-linia-metro/-/linia/L1

Bus Nº 46 on its way from España Sq. to the airport stops at the Hospital and in front of the University Building.

Location of the course:

Registration and morning sessions of the course will be situated in a classroom of the Lecture building at the UB University Campus - Bellvitge. There will be signs at the entry of the building announcing the course and classroom.

Hands-on sessions will be held in the Vascular Lab (Module D, 1st floor) located less than 200 m. from the university building.

 $\frac{\text{http://maps.google.es/maps?hl=es\&ll=41.344719,2.106736\&spn=0.005477,0.012392\&t=m\&z=17}$

Meals will be delivered in the form of bags with food to be consumed in the gardens of the faculty campus at the UB University Campus-Bellvitge.

HOTEL ACCOMMODATION

Barcelona has a big offer of hotels, although they are rather busy in May. We recommend booking as early as possible to get better rates. The most convenient and closest hotel to the Hospital is Hesperia Barcelona Fira Suites.

https://www.hesperia.com/en/hoteles/spain/barcelona/hotel-hesperia-barcelonafira-suites

COURSE DINNER

An informal dinner is planned on the first evening (Wednesday 6th) at a restaurant in the city center near Las Ramblas. No transportation will be provided. Participants will have to reach the restaurant on their own.
