ESVS Techniques for Successful Infra-inguinal Bypass, with Case-Based Discussion – 2026 13th May 2026

Moderators: Matthew Menard, Maarit Venermo

- 17:30-17:32** Opening Remarks
Matthew Menard, Maarit Venermo
- 17:32--17:42** Pre- and intra-operative assessment of vein conduit: how you know if your vein conduit is adequate and what is real prevalence of suitable single-segment great saphenous vein?
Melina Vega
- 17:42-17:52** Bypass with reversed single segment saphenous vein approach: Technical pearls on how to do it effectively and quickly.
Alik Farber
- 17:52-18:02** Bypass using alternative autogenous vein: How to make arm vein, short saphenous vein, and spliced vein work to its fullest capacity.
Asha Malan
- 18:02-18:09** Panel Discussion and Audience Q&A
- 18:09-18:23** Case Presentation (and Non-reversed GSV Bypass Video Presentation)
Severi Mulari, Helsinki, Finland
- 18:23-18:33** Bypass using prosthetic conduit: When is it appropriate and how to make it work.
Matthew Menard

18:33-18:43 Redo bypass grafting: How to do it safely and how to best approach uncommon arterial exposures.

Mauro Garguilo

18:43-18:50 Panel Discussion and Audience Q&A

18:50-19:00 Case Presentation

Pieter Snyders, South Africa
